

IACIS Conference – Europe. May 27 – 29, 2020

Warsaw, Poland

Organized by the Management Institute, Warsaw University of Life Sciences – SGGW

Conference Theme: *Management & Information Technology: Innovation & Improvement*

The IACIS 2020 - Europe provides a showcase for the latest research in practice and pedagogical topics that focus on Management & Information Technology Innovation.

Submission Deadline

- Submission Deadline of complete papers or abstracts: **February 15, 2020**
- Reviews and responses to authors: **March 05, 2020**
- Submission of the final version of accepted papers or abstracts: **March 25, 2020**

Important: Please note that all submissions (full papers, extended abstracts, & abstracts) must be submitted by the deadline above in order to undergo the double blind, peer review process and be considered for publication in either the *Issues in Information Systems* (IIS), any of the selected journals, or the conference proceedings.

What to Submit

You are invited to share your research on the conference theme or other relevant IS and IT research with the educators and professionals attending the IACIS International Conference. Papers covering related academic and technical issues are also encouraged.

- Full pedagogy/research papers
- Abstracts
- Panel presentation proposals

Submit only unpublished, original works. Proposals for workshops, panel presentations, and round table discussions should provide a general overview of the session's objectives and activities.

Registration Fee

Early Registration -- \$295 (USD) if paid by 11:59 p.m. March 26, USA Central Time. This amount will change to **\$345 (USD)** if paid after 11:59 p.m. March 26.

Registration fee will include membership in IACIS and a year's subscription to the Journal of Computer Information Systems (a refereed journal published six times a year by Taylor & Francis). This membership will begin in January 2021.

Publication Opportunity

All submissions are double-blind refereed. All high-marked full papers accepted in the review process will be fast-tracked for publication in Volume 21 of *Issues in Information Systems* (ISSN 1529-7314), a publication of IACIS. *Issues in Information Systems* journal is a refereed, serial publication that is registered with the U.S. Library of Congress and listed in the Cabell's Directory of Publishing Opportunities in Management. All other accepted submissions will be published in the Conference Proceedings.

In addition, the conference chair will select several high-marked papers to go through additional round of double blind reviews for possible publications in the following journals:

Journal of Computer Information Systems

A monograph of selected papers will be published by Warsaw University of Life Sciences.

How to Submit

Please visit the following link to submit online: <http://iacis.org/conference-europe/openconf/openconf.php>

Suggested Topics

Artificial Intelligence	Digital Forensics
Authenticated Access to Information	Encryption and Confidentiality of Data
Blockchain	Gamification
Crowdsourcing	Health Informatics
Cryptocurrencies	Human Computer Interaction
Cybersecurity	IT Globalization
Cybersecurity Forensics	Information Assurance & Security Information Management
Cybersecurity Incident Response	Information Systems Accreditation
Data Privacy Technologies	Information Systems Convergence
Distributed Denial of Service Defense	Internationalization
Enterprise Level Security Metrics & Usability	Internet of Things
FinTech	Knowledge Management
Identity and Access Management	Management of Technology
Internet Measurement & Attack Modeling	MIS Instructional Issues
Mobile Device Security	Mobile Technology
Process Control Systems Security	Model Curriculum
Research Data Repository	Organizational Culture
Secure Protocols	Privacy of Information
Security of Cloud-Based Systems	Professional Codes of Conduct
Software Quality Assurance	Project Management
Analytics/Business Intelligence	Qualitative Research in IS
Big Data	Research Issues and Methodologies
Assessment of Learning in IS	Social Media
Behavioral Issues in MIS/IT	Social Networking
Cloud Computing	Socio-technical Systems
Curriculum Development	Systems Implementation
Curriculum Accreditation	Global Positioning Systems (GPS)
Cybersecurity	Human Computation
Cyberforensic	Human Elements
Data Management	Machine Learning
Data Warehousing/Data Mining	Privacy & Public Data
Database Design and Development	Robotics
Decision Support Systems	Scientific Computing and Computational Science
e-Commerce, m-Commerce	Sensors and Sensor Networks
E-Learning	Social Media
Emerging Programming Languages	Trust Management
Enterprise Architecture	The Internet of Things
Enterprise Resource Planning	Virtual Reality
Ethical and Legal Issues in IT	Wearable Technology
Gaming Design & Development	Marketing
Data Mining	Knowledge sharing economy
	Crowdfunding
