

60th IACIS Annual Conference – October 7 – 10, 2020

The Inn at Opryland, Nashville, Tennessee

Conference Theme: Internet of Things (IoT)

The IACIS International Conference provides a showcase for the latest research in practice and pedagogical topics that focus on how information systems are used to support organizations or enhance the educational process. The theme of the 2020 IACIS conference is the Internet of Things (IoT). The IoT is the communication that occurs between a network of physical objects that feature an IP address for internet connectivity and Internet-enabled devices and systems. Some applications of IoT are security, privacy, inventory management, logistics and supply chain optimization, product flow monitoring, quality control, connected car, connected health (digital health/telehealth/telemedicine), industrial internet, smart city, smart farming, smart grids, smart home, smart retail, smart supply chain, and wearables among others. The IoT has been ranked as #1 in the top ten list of technologies that are perceived by technology industry leaders as having the greatest potential to drive future business transformation and long-term value.

Submission Deadline

In order to meet conference deadlines, all submissions MUST be submitted online by **May 31, 2020**.

Important: Please note that all submissions (full papers, extended abstracts, & abstracts) must be submitted by the deadline above in order to undergo the double blind, peer review process and be considered for publication in either the *Issues in Information Systems* (IIS), or the conference proceedings.

What to Submit

You are invited to share your research on the conference theme or other relevant IS and IT research with the educators and professionals attending the IACIS International Conference. Papers covering related academic and technical issues are also encouraged.

- Full pedagogy/research papers
- Abstracts
- Panel presentation proposals

Submit only unpublished, original works. Proposals for workshops, panel presentations, and round table discussions should provide a general overview of the session's objectives and activities.

Publication Opportunity

All submissions are double-blind refereed. All high-marked full papers accepted in the review process will be fast-tracked for publication in Volume 21 of *Issues in Information Systems*, a publication of IACIS. *Issues in Information Systems* journal is a refereed, serial publication that is registered with the U.S. Library of Congress and listed in the Cabell's Directory of Publishing Opportunities in Management. All other accepted submissions will be published in the Conference Proceedings.

How to Submit

Please visit the following link to submit online: <https://iacis.org/conference/openconf/openconf.php>

Suggested Topics

Specific to the conference theme

Applications of IoT

Security, privacy, inventory management, logistics and supply chain optimization, product flow monitoring, quality control, connected car, connected health (digital health/telehealth/telemedicine), industrial internet, smart city, smart farming, smart grids, smart home, smart retail, smart supply chain, and wearables among others.

Other Relevant Topics

Cybersecurity Curricula Assessment	Gamification
Cybersecurity Forensics	Health Informatics
Cybersecurity Incident Response	Human Computer Interaction
Data Privacy Technologies	IT Globalization
Distributed Denial of Service Defense	Information Assurance & Security
Enterprise Level Security Metrics & Usability	Information Management
EdTech Convergence	Information Systems Accreditation
Homeland Open Security Technology	Information Systems Convergence
Identity and Access Management	Internationalization
Internet Measurement & Attack Modeling	Internet of Things
Mobile Device Security	Knowledge Management
Process Control Systems Security	Management of Technology
Research Data Repository	MIS Instructional Issues
Secure Protocols	Mobile Technology
Security of Cloud-Based Systems	Model Curriculum
Software Quality Assurance	Multimedia
Analytics/Business Intelligence	Organizational Culture
Big Data	Privacy of Information
Assessment of Learning in IS	Professional Codes of Conduct
Behavioral Issues in MIS/IT	Project Management
Cloud Computing	Qualitative Research in IS
Curriculum Development	Research Issues and Methodologies
Curriculum Accreditation	Social Media
Cybersecurity	Social Networking
Cyberforensic	Socio-technical Systems
Data Management	Systems Analysis and Design
Data Warehousing/Data Mining	Systems Implementation
Database Design and Development	Telecommunications
Decision Support Systems	Theories in IS
e-Commerce, m-Commerce	Usability
E-Learning	Vendor Relations
Emerging Programming Languages	
Enterprise Architecture	
Enterprise Resource Planning	
Ethical and Legal Issues in IT	
Gaming Design & Development	

Registration Fee

Early Registration -- \$495 if paid by 11:59 p.m. August 1, Central Time. This amount will change to \$545 if paid after 11:59 p.m. August 1.

Student and Retired Registration - \$395 if paid by 11:59 p.m. August 1, Central Time. This amount will change to \$445 if paid after 11:59 p.m. August 1.
